

Systematic Investment Plan

Investing in the future *the rules of the 'game'*

Pieter Sonneveld | EHA President

Shai Izraeli | EHA Treasurer

January 30, 2019

Investments require:

- A solid plan/structured approach
- A transparent process -> Input from and support at all levels (members, committees, EHA Board & Office)
- Consensus within the EHA Board -> Board meetings
- Time
- And of course money

A solid plan/structured approach

What are we aiming at? (our strategy)

What are our tactics (in Research, Education, Advocacy, Stakeholder engagement, etc)

Which tools do we use? (our programs & projects)

When are we successful?

Transparent process

- Input from and support at all levels is a must:
 - Members -> Membership Survey
 - Committees -> meetings where requirements re investment proposals are clearly communicated and feed back from the Board is provided
 - EHA Board -> look at the bigger picture, EHA as a whole
 - EHA Office -> actively participate in all discussions

Consensus within EHA Board

- All topics need to be addressed
- Meaningful discussions
- Now 4 Board meetings/year -> enough and the right format to take informed decisions?

2019-2022

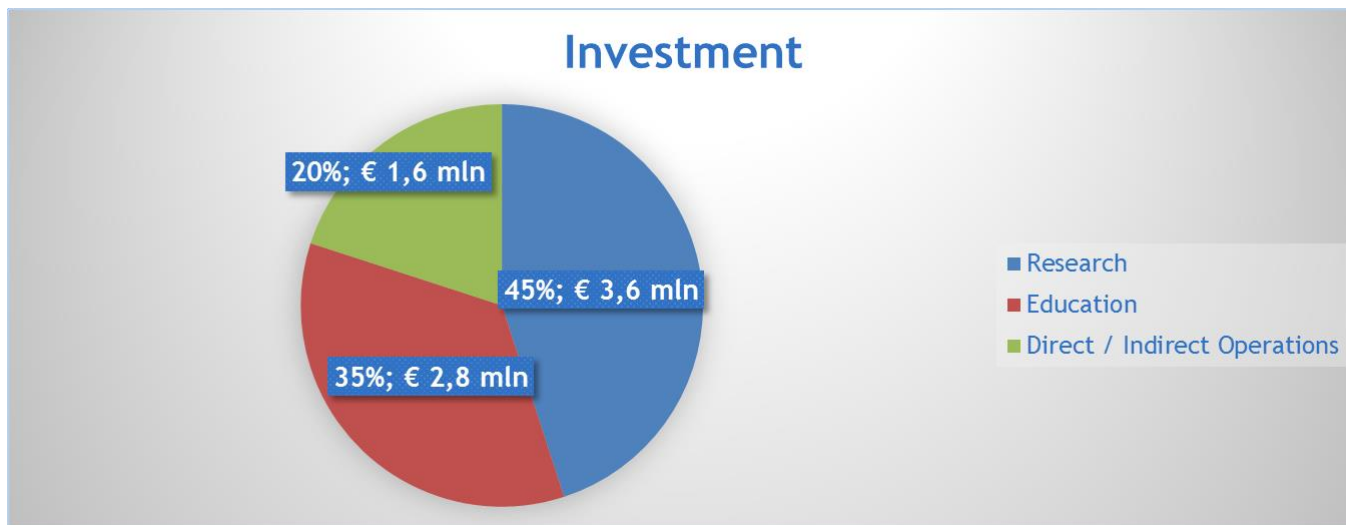

Invest in tranches

What is available for future investments?

2019 - 2022: € 8,0 mln

This Board Meeting.....

14:00 - 14:45

Research & Mentoring -> Research Committee is going to present first plans

14:45 - 15:30

Education & Training -> Education Committee is going to present first plans

To help you.....

.....first a short overview of the strategy, tactics and tools

Research & Mentoring

What are we aiming at?

Promote excellence in hematology research by obtaining a strong position in this area.

What are our tactics?

- Provide financial support for future research leaders
- Provide mentoring programs on research
- Establish and expand collaboration with research groups, organizations, and the next generation researchers
- Incorporate research and researchers in all our activities
- Publish on hematology research
- Lobby for research funding

Research & Mentoring

Which tools do we use?

- Grants/fellowships
- CRTH
- TRTH
- YoungEHA (Research meeting)
- Research sessions in congress program
- Scientific Working Groups (various activities)
- HemaSphere
- David Grimwade, Jose Carreras and JBLA Award
- Member Biomed Alliance, EAPM
- Start of a collaboration with ISEH

Education & Mentoring

What are we aiming at?

Promote excellence in education by maintaining and expanding our strong position in this area.

What are our tactics?

- Offer online, blended and live programs of the highest quality
- Strive for harmonization in hematology education
- Serve different target groups in resourced and less resourced countries (clinicians, researchers)
- Strong and continuous promotion

Education & Training

Which tools do we use?

- EHA Campus & Learning center
- European Hematology Curriculum
- European Hematology Exam
- Education sessions in congress program
- Master Class
- Tutorials
- Highlights of past EHA
- EBAH accreditation
- Education & Mentoring Award
- Educational travel grants

Key question this Board Meeting

Can the EHA Board already take a decision on the (first) investments for Research & Mentoring and Education & Training?

Next steps

- April 2019 review plans:
 - EU Affairs
 - Stakeholder engagement (members, National Societies, industry, etc)
 - Topics-in-Focus
 - Organizational structure
