10th EHA Pediatric Course

About the meeting

Join the **10th EHA Pediatric Course** for an opportunity to develop your skills in problem-solving in real clinical cases and linking basic science to the clinic. The course organizers aim to create a friendly and informal atmosphere and to encourage exchange of scientific ideas for ongoing and future projects. The course is intended for clinicians in pediatric hematology, researchers in the field (or wishing to enter it), students and biologists working in hematology laboratories.

Date: October 19-22, 2022

Location: Sorrento, Italy

Format: Physical

Course directors:

A Baruchel (FR)

A Biondi (IT)

A Borkhardt (DE)

I Roberts (UK)

J Vormoor (NL)
