Join us at EHA2025, the 30th EHA Congress, from June 12-15, 2025, where we're revolutionizing the Congress experience!

The EHA Executive Board, Advisory Board, and our special taskforce for EHA2025 have meticulously crafted a new program structure to elevate your Congress experience. Departing from tradition, EHA2025 introduces Satellite Symposia and Updates-in-Hematology (sponsored program) throughout the Congress, creating a dynamic environment for learning and collaboration.

Expect a seamless flow of engagement as Plenary Sessions, including the Opening Ceremony, Plenary Abstract Session, and Presidential Sessions, are strategically dispersed across each Congress day. With an increase in invited speaker program sessions and the scheduling of a second poster session, we're thrilled to accommodate the rapidly growing number of abstract submissions which show the high interest in sharing groundbreaking hematology research.

In summary, EHA2025 offers more scientific content with fewer parallel sessions, ensuring a balanced distribution of program elements throughout the 3.5 Congress days. These changes are designed to enhance your overall experience, foster deeper connections, and maximize the dissemination of invaluable information within the hematology community.

Don't miss out on the redesigned EHA2025 and be at the forefront of advancements in hematology.
