

# Kosovo Association of Hematologists

- In 2024, the Hematologist Association of Kosovo held a series of impactful meetings focused on critical hematologic conditions, including acute leukemia, myelodysplastic syndromes (MDS), and multiple myeloma.
- These gatherings brought together experts and professionals to share knowledge, discuss advancements in treatment, and foster collaboration in the fight against these complex diseases.
- The association's commitment to enhancing local expertise in hematology has not only elevated clinical practices but also strengthened Kosovo's position in the global medical community.
- Together, we continue to work toward improving patient outcomes and advancing hematology research in Kosovo.“
- As an association, we actively participated in EHA Minitutorial and EHA Balkan Day.

- Three residents have actively participated in Soho- 2024 held in Houston, Texas where they shared cases from our daily practice. Their involvement made a positive impact on the event.
- 5 hematologists took part in the meeting of EHA Madrid where they exchanged knowledge and practices with well-known names in the field of hematology.
- We also took part in the EAHAD 2025 held in Milano- where they received the latest information in the field of bleeding disorders and coagulation.
- We took part in the Lighting the Flame- retreat held in Tallin, Estonia- a good opportunity to enter the world of hematology.
