SWG ON GRANULOCYTES AND CONSTITUTIONAL MARROW FAILURE SYNDROMES

Report of year 2017

CONFLICT OF INTERESTS OF THE BOARD
No relevant Conflict of Interest

LIST OF ACTIVITIES

The Scientific Working Group (SWG) on Granulocytes and Constitutional Marrow Failure Syndromes (G&CMFS) is a newly established SWG. It derives from the fusion of the formerly existing SWG on Granulocyte and Monocyte Disorders with other initiatives grown within the EHA environment related to Constitutional Marrow Failure Syndromes and namely: the ribosome disorders group and the leukemia predisposition gene group.

According to the EHA road-map it was agreed at the level of the SWG Unit and of the EHA Board to gather together the previous and the new initiatives in newly built SWG named Granulocytes and Constitutional Marrow Failure Syndromes (G&CMFS) that was formally established at the 22nd EHA Annual Congress in Madrid, in June 2017.

The structure of the SWG, the organization, the aims and the future activities of this SWG were approved during a business meeting held Thursady June 22nd at EHA Congress, in Madrid whose minutes are enclosed to this report (Encl. 1)

Based on this, the list of activities for the year 2017 is necessarily very limited and includes the SWG Oral Session held at the 22ns EHA Annual Congress, 22-25 june, Madrid entitled: “New insights in neutropenias”, that was still related to activity of the old SWG.

LIST OF PUBLICATION FROM OR REALTED TO THE SWG (papers from individual members/group) from June to December 2107.

Kim de De Keersmaecker

Jean Donadieu

- How I treat warts, hypogammaglobulinemia, infections, and myelokathexis syndrome. Blood. 2017 Dec 7;130(23):2491-2498

Carlo Dufour

• A new form of IRIDA due to combined heterozygous mutations of TMPRSS6 and ACVR1Aencoding the BMP receptor ALK2. Blood. 2017 Jun 22;129(25):3392-3395.

Francesca Fioredda

• Autoimmune neutropenia of childhood secondary to other autoimmune disorders: Data from the Italian neutropenia registry. Am J Hematol. 2017 Sep;92(9):E546-E549

Cristina Mecucci

Ian Palmblad

Helen Papadaki

Cornelia Zeidler

Severe congenital neutropenias.

LIST OF ACTIVITIES AND PRESENTATIONS AT NATIONAL AND INTERNATIONAL MEETINGS RELATED TO THE NUTROPENIA TOPIC from June to December 2107

Carlo Dufour
- Chairman of Granulocyte disease session at the 2017ASH annual meeting, Atlanta (GE)
- Oral presentation at the 2nd EBMT International Transplant Course, Barcelona 9-10 September 2017.

Francesca Fioredda

Jean Donadieu,
- Oral presentation at Annual ASH Congress 2017 Atlanta (GE)

Genova 19th February 2019
